Summary

Experienced QA Automation Engineer skilled in Python, Selenium, Playwright, Pytest, and Postman. Adept at both manual and automation testing with strong knowledge of OWASP Top 10. Proven track record across **GoMechanic**, **Inuvest Technologies**, and **Catalogus**, delivering high-quality software and optimized test workflows.

Work Experience

Catalogus — QA Automation Engineer (Jan 2025 – Present)

- Drove end-to-end QA for the platform; authored test plans, scenarios, and a page-wise QA checklist for the entire product (Reduced UAT defect leakage by **25%**).
- Built and maintained automation using Python, Selenium, and Playwright; organized suites for sanity, regression, and E2E. and covered almost **60 to 70%** test cases.
- Created a Jenkins CI pipeline to run headless test suites with reports and logs for quick triage.
- Performed white-box and black-box testing; partnered with devs for API/DB checks and fast defect isolation.
- Reported, tracked, and prioritized issues in JIRA; participated in daily standups and Scrum ceremonies.

Inuvest Technologies — QA Automation Engineer (Jan 2023 – Dec 2024)

- Wrote detailed manual test cases and converted them into automation using Selenium, Python, and Pytest.
- Designed and executed sanity, regression, and end-to-end suites for core trading flows.
- Reported bugs with clear repro steps and evidence in JIRA; collaborated through standups and sprint reviews.
- Structured tests for maintainability (fixtures, reusable helpers, stable locators) and consistent execution.

GoMechanic — QA Intern (Sept 2022 – Jan 2023)

- Performed manual testing; created clear test cases and checklists.
- Executed sanity and regression passes and shared findings with the team.

Education

Graduation, Delhi University (2018–2021)
Class 12, CBSE (2018)
Class 10, CBSE (2016)

Skills

Programming: Python

Automation: Selenium WebDriver, Playwright

Frameworks: Pytest

API Testing: Requests (Python), Postman

Tools & IDEs: VS Code, PyCharm, Git, JIRA, Jenkins

Testing Types: Sanity, Regression, End-to-End (E2E), White-box, Black-box

Test Practices: Test Planning, Test Case Design, Bug Reporting & Triage, Agile/Scrum
